

At top are the metals that we generally keep in stock in sheets and cut to size. The corners can be rounded or notched (except for very narrow plates) and they can have holes and screws or adhesive or both. There is a minimum \$3.50 charge, beyond that the \$.50/psi applies. Engraving is additional charge but for the 3 metals we sublimate, the marking is included.

The decorative brass plates we buy pre-made. There may be additional options for thickness or material (nickel for example) and for an additional charge of \$1.10/plate we can order the plates with 2 holes.
